

LET'S GET PHYSICAL!

Enhance your day
The Learning Carpet way!

ATTENTION ALL
GRADES 1-5 TEACHERS!

GEOMETRY

- discovering, building & naming geometric shapes
- transformational geometry (Flips, Slides & Turns)
- coordinate geometry

NUMBER SENSE

- numerical patterns 1-100
- place value
- skip counting (multiplication & division)
- patterns beyond the obvious (left diagonal from 6 = number facts for 6)
- larger numbers (24, 33 - 2433)
- fractions (equivalent, improper, mixed numbers)

LANGUAGE

- rhyming word families
- building words
- games (Scrabble, Crosswords, Boggle, etc.)
- alphabetical order
- prefixes & suffixes

PATTERNING

- building, naming & extending patterns (objects, cards, numbers)
- growing patterns
- quilting & tiling

MEASUREMENT

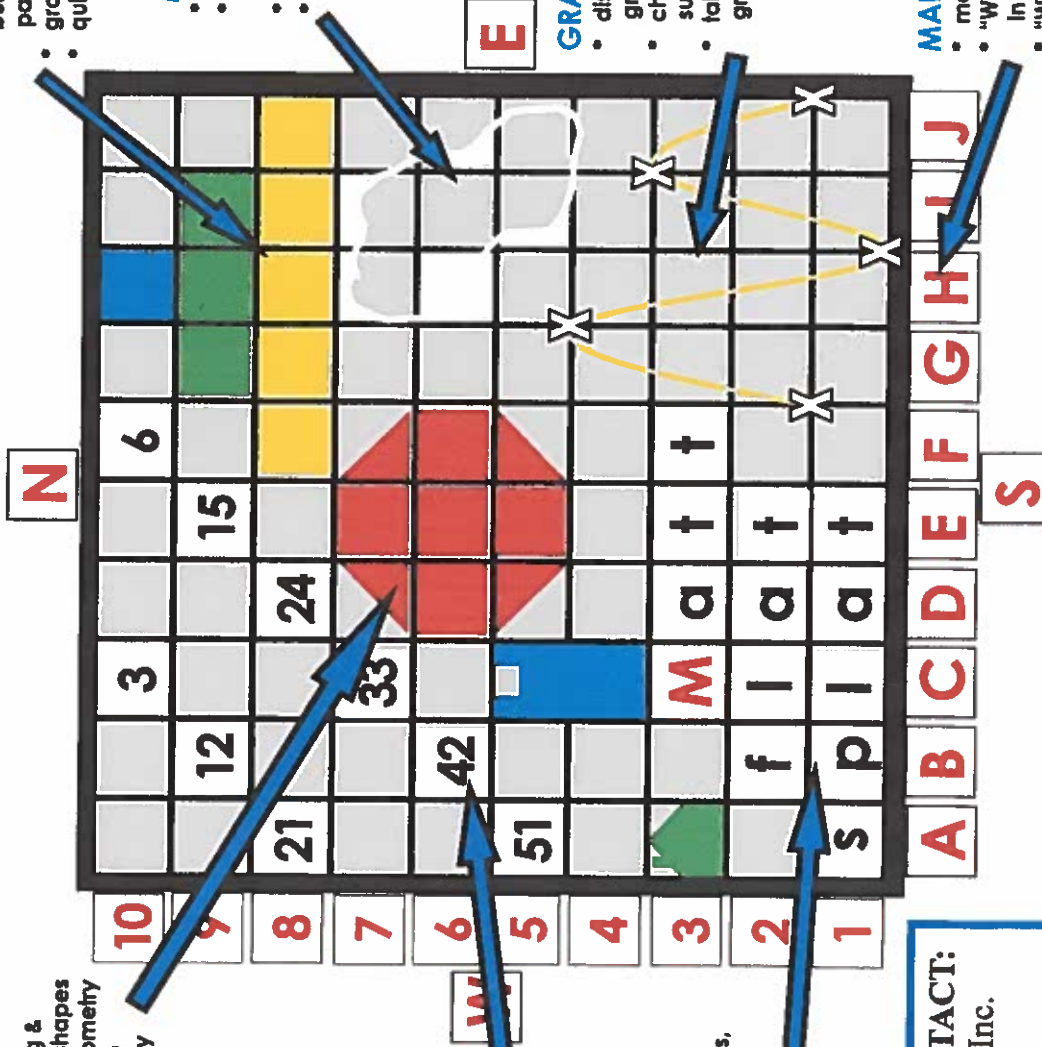

- calculating area & perimeter
- problem-solving area and perimeter of irregular shapes
- exploring analog time
- experiencing money concepts

GRAPHING

- displaying survey results in bar graph or line graph form
- changing the scale to accommodate survey results
- talking & developing questions about graphs

MAPPING

- mapping using coordinates
- "Where is the green house in relation to the blue hospital? (SW)"
- "Where is the hospital? (C4,5)"
- plan a route with a diversion
- longitude/latitude using intersecting lines - 4 quadrants

**SCHOOL AND DISTRICT
WORKSHOPS AVAILABLE!**
